All American Celebration

June 28th marked the 6th annual All American Celebration, and of course it rained! Despite the rain, over 500 people joined HCF[®] to honor firefighters, police officers and veterans with a flag and honor ceremony, complimentary lunch, entertainment, and prizes! The major sponsors were Buffalo Wild Wings, HyVee (91st & Metcalf), Wal-Mart Neighborhood Grocery Store, Konica Minolta Business Solutions, B.J. Productions, Applebee's International, D'Bronx Pizza & Deli. Many other businesses contributed prizes, gift cards and money to make the All American Celebration successful. Without the support of the community this event would be impossible for HCF to produce due to the expense and we are very appreciative of their sponsorship.

Firefighter shakes hands with Eric

This year we were pleased to have Baby Jay from the University of Kansas attend! She was a big hit with everyone, except for a few K-Staters! Thanks to board member, Deanna Cauley, and her O.P. Police Officer husband, Jack, we had more police officers and firefighters being honored than ever before!

The All American Celebration was created in the first year of our program, in response to the events of 9/11. The HCF[®] employees felt a strong need to honor our local heroes, who are willing to put their lives at risk to protect our community. They still feel very strongly about this event and take part in the planning and hosting. During one of our planning sessions a spirited rendition of the "Star Spangled Banner" spontaneously occurred and everyone in the building came and joined in with the committee! If you would be interested in helping with this event in the future, please call Anne Hull or Jennifer Grath and join the All-American Team!

Expansion Project

In August, Heartstrings Community Foundation® purchased a new business. “Sacks on Santa Fe” Fine Clothing and Accessories opened September 1st, 2007. Employees from Heartstrings are very busy learning new skills! The store was most recently owned by Community Disability Network. As the focus of their agency changed, they became interested in selling, just at the time HCF® was looking for another business opportunity for our employees.

The store is located at 8025 Santa Fe in Downtown Overland Park. We are having such fun getting acquainted in a new area and meeting new friends who are regular SOSF shoppers. Downtown Overland Park is a vibrant area, especially on Wednesday and Saturday mornings!

Through the acquisition of this new business HCF® will be able to employ 8 – 10 more adults with developmental disabilities. We certainly hope that you

will come by to see the mini facelift we have given the store and the lovely inventory of clothing and personal accessories.

Business Advisory Council

Heartstrings Community Foundation® was created to provide a new kind of service to adults with developmental disabilities and to the community. When establishing a new business it is very valuable to draw on the advice and experience of other successful business executives and owners. In addition to an impressive list of board members, Heartstrings Community Foundation®

established the Business Advisory Council. The purpose of this body is to network for Heartstrings in the business community and provide specialized support and advice when the HCF® board and/or staff face unfamiliar situations. The members of the Business Advisory Council are highly successful people recognized in the business community for their expertise and interest in their

community. The support of the following individuals is extremely valuable to Heartstrings: Gordon Docking – St. Joseph Medical Center, Lloyd Hill – Applebee’s International, David Lindstrom – Johnson County Commissioner, Dean Oskvig – Black & Veatch, Mary Anne Simons – HNTB, Brad Stratton – Merrill Lynch, and Kristina Wyatt.

Welcome New Neighbors

We are thrilled to have a new restaurant next door to Heartstrings. Anyone who attended the All American Celebration will remember the excellent desserts donated by D’Bronx Pizza & Deli. Now you can enjoy them regularly as they have moved into the space on the corner facing Metcalf. The renovation project has been

extensive and the results are beautiful inside and out! November 7th, opening night, was a benefit for Heartstrings with nearly 200 attending and proceeds netting approximately \$2000. Many thanks to D’Bronx and our friends who came to dinner to help HCF®. What a great new friendship this will be!

Don Foringer, Rosanne Thiry, Bunny Higgins, Rose Davis

License Package Committee

Lloyd Hill, David Lindstrom, Rick Brucker, Doug Leibbrandt, Brian Stanley, Anne Hull, and Bunny Higgins have been working all summer on a licensing package to offer groups who are interested in starting another Heartstrings Community Foundation® in their city.

Brian Stanley and Ed Marquette from Sonnenschein, Nath & Rosenthal Law Firm have been working with HCF® for two years to acquire the registration of our patents. They are also offering assistance in structuring the license package. The guidance, and the input of this committee is vital to the success of Heartstrings

Community Foundation's expansion throughout the nation. Lloyd Hill and David Lindstrom are members of the Heartstrings Business Advisory Council, Rick Brucker, Doug Leibbrandt and Anne Hull are Board Members, and Bunny Higgins is the HCF® Executive Director

We created a new mission statement; *Assisting Adults with developmental disabilities to live meaningful, productive and independent lives through interactions with the community. Building successful & enriched business relationships in the community using the unique expertise &*

practices of the HCF model to employ adults with developmental disabilities.

The committee determined that only one license will be available in each city. Each new licensee will have its' own name and will be licensed by Heartstrings Community Foundation in addition to their state license. An application and process of consideration for licensing was developed. Heartstrings has received 4 patents so far and the final patent application on the business practices is in process. The fee structure and term options are expected to be completed in the first quarter of 2008.

Heartstrings Connections

Heartstrings focuses on interaction and connection to the community for people with developmental disabilities. We also hope to build better business connections for HCF® and the local business community. By spotlighting some of our business partners, we hope that our readers will find ways to work together to increase productivity. This edition features two very different businesses who work with Heartstrings.

The Grant Company, LLC works with other organizations to improve communication. They have developed an innovative web-based assessment that provides real-time feedback regarding communication style. Many industries have shown interest in using The Grant Company's services to help improve communication, which should result in higher productivity and employee morale.

The Grant Company also works in the field of education, where they use their online assessment to map students with teachers based on temperament, learning style, and communication style.

The Grant Company staff looks forward to weekly visits from Heartstrings. Here's what they have to say:

"I enjoy seeing the Heartstrings group every week. They are always so friendly and professional, and they are a wonderful addition to my day."

"The most amazing thing about Heartstrings, to me, is the way that it reminds all of us, regardless of our own personal challenges, that we can be productive, valued and truly happy members of a greater community. Too often we get caught up in the trials and tribulations of life, but the young men and women at Heartstrings remind us to find the joy in each day, a gift that we all need from time to time. Plus, the candy is great!"

"The Heartstrings employees are very professional and really cater to us. They know what our favorite snacks are and always come to our office fully stocked. It's rare to find this type of exceptional service nowadays! "

Located in Mission, Kansas, M.J. Harden Associates, Inc. has been providing high quality aerial imaging, photogrammetric mapping and geospatial data management services in the Kansas City metro area for over 50 years. MJ Harden's founder,

Milton J. Harden pioneered the use of photogrammetry in the U.S. while working with the U. S. Geological Survey, and eventually took his experience with this developing technology into private practice as the beginning of their mapping business. Since that time, MJ Harden as completed over 20,000 projects and continues to grow. In March of 2007, MJ Harden became a part of GeoEye, the world's largest provider of high-resolution commercial satellite imagery.

MJ Harden has provided their services to many engineering firms, governments, pipelines, utility companies and more through the years and one of the ways the company likes to say thank you to their clients is to send a gift during the holiday season. This year, MJ Harden is electing to send gift baskets from Heartstrings to a few of their clients. Beyond the wonderful aspect of supporting Heartstring's mission, MJ Harden likes the flexibility to custom design a basket that fits the budget and suits the desire of the gift-giver.

In addition to purchasing gift baskets from Heartstrings, MJ Harden also participates in the Goody Delivery program twice a month. Many of the employees enjoy the delicious treats and the smiling faces that come during those deliveries.

Heartstrings Board of Directors

There are two new additions to the Board of Directors of Heartstrings Community Foundation®. During the Fall recruitment process Thomas Tadtman and Jack Tate were elected to the Board. Tom is a marketing executive with Sun Microsystems (Goody Delivery Customers) and Jack is a Loan executive with Bank of Blue Valley (Basket customers and Gala sponsors). The board is very pleased to welcome these enthusiastic and accomplished gentlemen.

At the same time we reluctantly accepted the resignation of Leslie Chalmers, Phyllis Young, and Deanna Cauley. Leslie served for three years and was active in the fundraising events. Phyllis is a charter board member and was very helpful in the development of Heartstrings.

The directors commit to a 3 year term without financial compensation. Full board meetings are held in January,

March, May, July, September, and November. Board members chair the committees, scheduling regular meetings in February, April, June, and October and whenever necessary to address issues. The responsibility of the board members is to evaluate and approve the budget and business practices of the organization, to promote Heartstrings in the community, to participate in Heartstrings events, to donate and/or raise funds, and to recruit, hire and evaluate the executive director.

The committees are Budget/ Finance, Recruitment/Nominations, Long Range Planning, Business Development, Personnel, and Fundraising. The HCF by-laws established that the board would consist of no less than 5 but no more than 25 people. The current board has 10 members.

Heartstrings has grown from a very small organization in 2000 with a \$10,000

budget and dream to serve individuals with developmental disabilities in a new way, to an agency in 2007 serving 33 employees with a supervisory staff of 16, a budget of approximately \$700,000, 4 patents, 1 trademark, and the opportunity to license and train other new Heartstrings throughout the nation!

It is very important that Heartstrings Community Foundation maintains a talented, experienced and dedicated board of directors. We are all looking forward to an exciting new year in 2008. Joining a committee is a great way to become more informed about Heartstrings and to participate in it's development into a nationwide opportunity for adults with developmental disabilities. If you are interested in applying for board membership or working on a committee, call Katheigh Degen (816) 333-2334 or Anne Hull (913) 649-5700.

Fragile X Syndrome Meeting

On September 29th, Emily Barnes and Anne Hull attended the Fragile X Symposium at Washington University in St. Louis, MO. The symposium is held yearly and always presents nationally recognized professionals who study and treat people who have Fragile X Syndrome.

Fragile X Syndrome is the most common form of inherited mental retardation. It is found at the FMR-1 gene on the X chromosome and occurs in 1 out of every 700 families. This

condition ranges from learning disabilities to profound retardation and affects males more often than females.

We are thrilled to announce that Heartstrings Community Foundation was invited to present at the International Fragile X Syndrome Conference July 2007 in St. Louis. This invitation is validation from a respected international foundation that HCF is successful and valuable service. We expect several opportunities to establish Heartstrings Community Foundation

licensed services in their communities. To find out more about Fragile X Syndrome visit www.FragileX.com

Heartstrings Billboards

Advertising is an extremely valuable yet expensive endeavor. It is always a challenge to find the most efficient ways to present our message. Through the wonderful assistance of Sherm and Jill

Smith and the cooperation of Lamar Outdoor Advertising and Fleishman Hillard, soon you will see Heartstrings billboards around the metro area. This

effort is something HCF® would never be able to afford without the partnership between these great sponsors! Watch the local billboards and let us know when you see ours!

Laptop Computers

Thanks to a collaboration between Sprint and a non-profit organization named Artstech, HCF® received four nearly new Dell laptop computers complete with software, mouse, and cases. Artstech partners with corporations that donate computer equipment. The computers are rebuilt and recycled to non-profit organizations and schools.

Heartstrings has purchased new wireless routers and will have more flexibility in the way we work. Our case managers will be able to record notes during meetings, the store manager will be able to walk around

the store and record inventory and prices, team leaders will be able to make case notes from any location. The donation is absolutely thrilling to everyone! We are so grateful to our good friend John Male, who was willing to go to Sprint and request support for HCF®. His dedication to communicating with the appropriate people resulted in an immensely successful result! This is a perfect example of how important business partnerships are to Heartstrings. Everyone at HCF® is very appreciative of the generosity of Sprint, Artstech and John Male!

Overland Park Chamber of Commerce

Heartstrings Community Foundation works diligently run efficient businesses and network in the business community. Membership in the Overland Park Chamber of Commerce is one of the

networking tools we use. In October, Heartstrings Community Foundation participated in the B to B Expo planned and hosted by the Overland Park Chamber at the Overland Park

Convention Center. Hundreds of businesses exhibit their products and information exploring ways to work together. This was the second time HCF® has exhibited our information. The contacts made there have led to new business opportunities, services offered at a discount, and volunteers. Heartstrings is always ready for an opportunity to present our message at meetings, conferences and events. Call Anne Hull at 913-649-5700 to arrange for a presentation.

Volunteering With Heartstrings

Volunteering with HCF® is fun, rewarding, and a great way to make new friends! Heartstrings is a busy group of productive people who juggle many types of events and jobs. Assisting staff supervisors during the day, working in one of our stores (we especially need

Saturday clerks), help make gift baskets, promote HCF®, Mailings and office support, acquire business customers for Goody Delivery, gift baskets, help organize storage buildings, help raise funds, join a committee leading to board membership and many more!

You too can be a part of all this *wild and crazy* fun activity! Call Jennifer Graf 913.649.5700 or go to our website, www.heartstringscf.org to apply for membership in the HCF volunteer corps.

Career Choices

Many new changes have been implemented at Heartstrings, including staff changes and new employees. We are happy to introduce the newest employees, Anna, Adam, Chris, David, and Katie,

Heartstrings employs 33 individuals and has a supervisory staff of 16.

Staff changes included adding Rachel Davis and Jennifer Graf as team leaders.

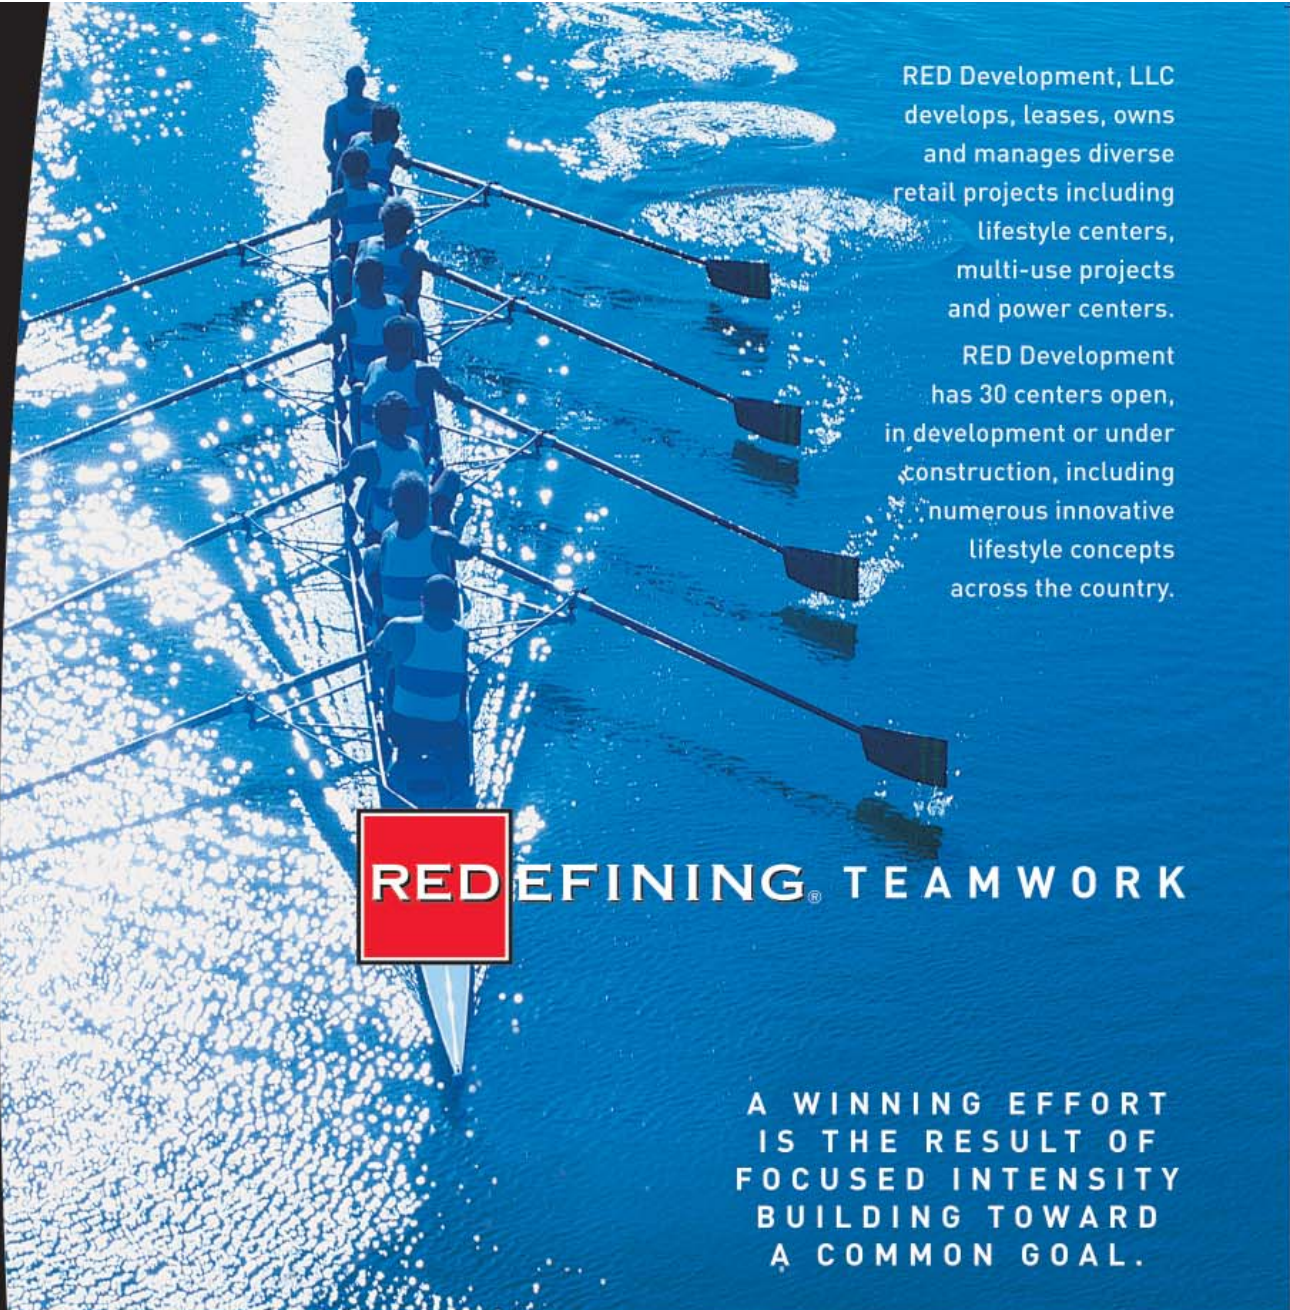

Jennifer also serves as HCF® volunteer coordinator. Loretta Levy and Rhonda Devine joined HCF® as store clerks. We said goodbye to Emily Barnes after four years as a Heartstrings team leader and two years as volunteer coordinator. Emily became a mother and subsequently decided to make a career change, but holds HCF dear and remains on the fundraising committee, so we will be seeing her at our events! All changes present a certain amount of uncomfortable feelings, but we recognize there is opportunity in all change. Heartstrings moves forward gaining knowledge and supportive friends every day.

From the Heart of the Executive Director

It is that time of the year again... We are ending our 5th year and beginning our 6th. As each day, week, month and year passes, I remember my mother telling me, "Don't wish your life away because it will be gone before you know it." As children or as a teenager you just don't think they are telling the truth. Like many other things that our mothers, fathers and loved ones have told us, we find as we get older that they did know what they were talking about. Life is too short and that is all the more reason why we should enjoy everyday that we have.

As I thought about the past year, I realized it would be difficult to adequately express my feelings in this letter. Writing is not one of my strengths, so I decided that I am going to just write down some of my thoughts. The end of the year means: Looking at the budget, creating the projected budget, evaluating the previous year, planning for the next year and strategically for the next 5 years. Raises are the first expense I think about. Will I be able to give raises, how much, who, when and why? HCF[®] has the BEST staff. All our staff members are passionate, dedicated, determined, teachable, and they believe in serving, giving and working together for a greater good. We provide an excellent service to the community; we are the ONLY organization of our kind, we strive for excellence in all we do. They ALL deserve more that I can physically give them.

So that brings me to how you can help: There are many ways that you can help support HCF[®]. Money – it takes money to meet our current budget, and one of my personal goals for HCF[®] – in the upcoming year is to increase all employees (participants) wages to at least minimum wage and give all the staff raises. This will NOT be possible without your help. Another way you can help is by donating your time. There are many different ways a person can volunteer for HCF[®]. You can donate home accessory items to our store "On My Own"[®], clothing to our newest business Sacks on Santa Fe, shop at our retail locations, order gift baskets, invite Goody Delivery[®] to your work, network for HCF[®] in your daily conversations, attend our special events throughout the year. This past year we had two of our families designate Heartstrings Community Foundation[®] as the memorial for their loved one. Another family put HCF[®] as the recipient for donations at their wedding. (Now that is creative!)

I challenge all of you, especially family members of the staff and employees of Heartstrings Community Foundation[®]. Be creative; think out of the box on how you can HELP us help your family members. Come to our events, donate some of your time, resources, shop at our stores, buy your gifts and or treats from us. Networking is one of the best ways to advertise and promote HCF[®]. All you have to do is remember HCF[®] in your daily conversations and you will be promoting your loved one's business. We all want our loved ones to be successful.

Life at Heartstrings is enjoyable, exhilarating, exciting, challenging, motivating, impressive, effective, influencing, encouraging, stimulating, energizing, rewarding, and delightful. I feel honored to be employed at an organization of such integrity. So, thank you to all that are making this opportunity possible for me, the staff, and all our employees. We can't do it without YOU!
